

## Pics for PECS® Version 14 Upgrade®

Welcome to Pics for PECS Version 14 Upgrade! This year's upgrade package includes more than 200 new images to complete your Pics for PECS collection.

This downloadable product is intended for customers who currently own the Pics for PECS Version 13 CD and wish to add only the newest 200+ images included on the Pics for PECS Version 14 CD. As Pyramid Educational Consultants expands around the world, we continue to add images reflecting the cultural and linguistic diversity of the people we work with. As with Pics for PECS Version 13, the upgrade package is a compilation of American English, Canadian English, British English and Australian English images-all of the variations are included in this one package. No need to try to cut and paste a text box to change the label on the image!

Brad Almond, of Pyramid Group Management Services Corporation located in Newark, Delaware, USA is our talented Creative Director who continues to illustrate an array of superb images. He does an absolutely brilliant job, rising to the challenge of drawing items he's never seen, or even heard of, and determining how to best represent more abstract concepts

All of the images in the Pics for PECS Version 14 Upgrade package are in high resolution jpg format and will run in virtually any computer operating system, provided an appropriate viewer application is installed. You can use the images just as you would any Clip Art image or any image you may download from your internet search engine. That is, you need to import the images into documents that support graphics in jpeg format. The most common type of document will be that produced in Microsoft Word®.

**Note:** Because the images are in high resolution, you can enlarge them to almost a full page size before seeing any significant image degradation. If you want to print a single image on a sheet of paper, copy and paste the image into a blank Microsoft Word® document then format to have a border.

As always, thank you for using our images! If you have any ideas for our next Pics for PECS Upgrade package, contact me at [lfrost@pecs.com](mailto:lfrost@pecs.com).

Happy PECing!

Lori Frost, M.S., CCC-SLP

Co-developer of the Picture Exchange Communication System® (PECS®)

Co-founder of Pyramid Educational Consultants
